

TH4386 HDDR

BRAND

**86
RM**

PRODUCT HIGHLIGHTS

- Exciting silage hybrid with outstanding High-Digestibility characteristics
- Big plant with lots of leaves, and large ears with soft flourey kernels for great starch digestibility
- Strong agronomics and slow drydown for long chopping window

MATURITY & CHARACTERISTICS

Maturity	86
Flowering	Medium
Plant Height	Tall
Ear Height	Low
Planting Rate	ML
Kernel Rows	16
Cob Color	Pink
Agronomics	1.5
RM Zone Placement	In Zone & North

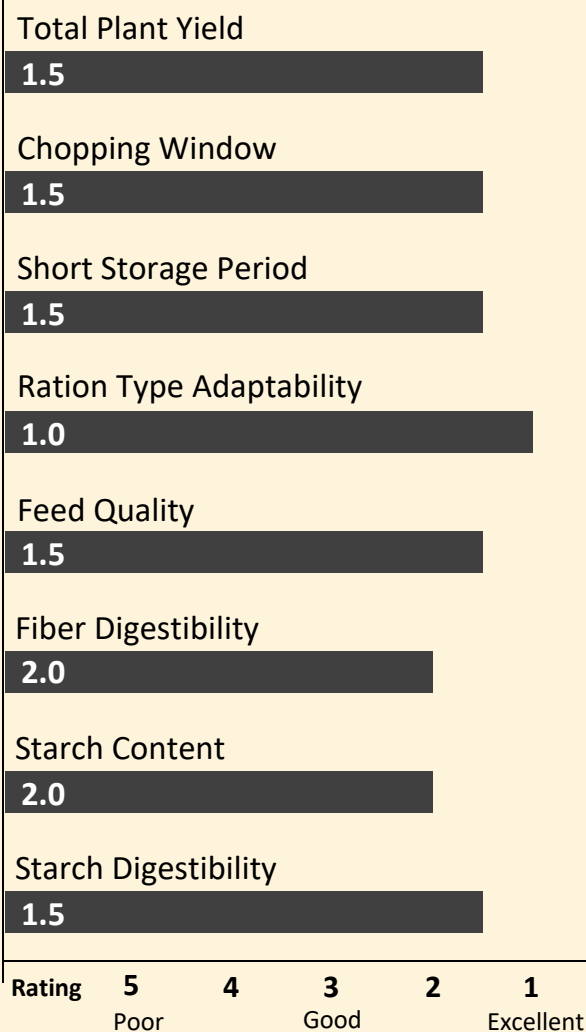

DISEASE TOLERANCE

Goss's Wilt	2.5
NCLB	3.0
Common Rust	2.0

GROWING CONDITIONS

Tough Conditions	Very Good
Variable Conditions	Very Good
Ideal Conditions	Excellent
